Welcome to Bentley Cardiff

As Dealer Principal of Bentley Cardiff, I am very proud to present to you our very own Bentley Cardiff Magazine, which I hope will give you an insight into our dealership and also all the latest company and manufacturer news.

There is much to talk about at the moment, as Bentley Motors will soon have the most varied and exciting model line-up in its long and colourful history, with the newly launched Continental GTV8 Coupé and Continental GTV8 Convertible.

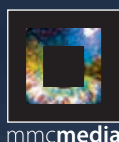

I am also proud to announce that one of our technicians was in the first group to qualify as Master Technician in the United Kingdom. One of our apprentices was also awarded "Apprentice of the Year" in his final year of qualification. Working with a highly skilled and

dedicated team of professionals, we are totally committed to providing the highest possible standards in sales, servicing and parts, befitting of this unique marque.

I do hope you enjoy browsing through the magazine and find its contents interesting. In the meantime, I very much look forward to seeing you at our showroom in the not too distant future.

Andrew Ford

BENTLEY CONTINENTAL SUPERSPORTS CONVERTIBLE ISR

The Continental Supersports Convertible ISR (Ice Speed Record) is the most potent and radically styled Bentley convertible ever.

Just 100 examples of the ISR will be built at Bentley's Crewe factory. The Supersports 'Ice Speed Record' is distinguished by its extrovert and muscular design cues that reinforce the uncompromising performance of this extreme Bentley convertible.

Bentley's designers have selected three 'stand-out' exterior paint colours for the new convertible: Beluga, Quartzite and, fittingly, Arctica White. These colours are complemented by a Dark Grey Metallic soft top with Bentley's refined three-ply composite construction.

The unique appearance of the soft top is created in the outer layer by a 'grey' acrylic fibre with a semi-transparent 'metallic look' in a twill weave construction. The car's potent performance is further accentuated by 20" inch, 10-spoke Supersports wheels with a dark tint finish.

For those customers seeking to accentuate the high performance credentials of the car further, Bentley offers a special ISR Mulliner

design package as a no cost option. The 20" 10-spoke Supersports wheels can be specified in a vibrant red paint with a diamond turned finish to produce a lustrous metallic contrast. The dual-louvered dark bonnet vents, unique to Supersports models, are complemented by red accent surrounds. The extrovert Mulliner design is completed with a set of bold of Supersports ISR graphics that run down both flanks of the car.

Exceptional wealth management in Cardiff

Today's wealthy population comprises increasing numbers of entrepreneurs, executives, and property developers and this is certainly no different in Wales.

At our Coutts Cardiff office, we have the privilege of meeting people from a broad range of backgrounds, each of them with their own idea on what they would like to achieve both personally, and financially. Wales is home to many high net worth individuals, and managing the wealth of such a broad range of clients requires a high level of expertise.

For more than 300 years, our exceptional service has been valued by clients from varying backgrounds and with very individual needs. From private investment to wealth management, commercial banking to tax advice, we build professional relationships that last.

Our team of bankers understand the challenges and opportunities associated with wealth. Whether you are an entrepreneur selling a business, an executive with substantial share options or a professional with little time to spare, the dilemma remains the same: Where are your assets best placed through

this difficult economic climate? How, in this period of low interest rates, do you invest your wealth in order to provide you with the things you want or will need in the future?

At Coutts, our experienced team's approach to investment advice carefully balances in-depth observation of our clients' attitudes to risk with precision. Our offering is highly personalised – and includes discretionary, advisory, treasury and execution services. We have a proven track record of building portfolios and growing wealth through the generations.

Beyond wealth management, we're here to help families share skills and knowledge to prepare for the future, offering support and insight to family businesses. When our clients need to prepare the next generation, we're here too, teaching young adults lifestyle and wealth management skills, and introducing them to one another. And when it comes to fulfilling your philanthropic goals, we help you to give efficiently, making the most of your gift to others.

We have always strived to lead the way, creating services to meet the changing

needs of our clients. We bring intelligence and fresh thinking to every aspect of our business, innovating to bring our clients the insight and services they need.

The Coutts & Co Cardiff office opened in 1996. Martin Carter and his team of private bankers and wealth managers cover sophisticated investment products together with expertise in trust & fiduciary advice and UK tax and banking services.

The value of investments and the income from them, can go down as well as up and you may not recover the amount of your original investment.

For more information about becoming a Coutts client in Cardiff, contact Martin Carter on 029 2050 1161, email martin.carter@coutts.com or visit www.coutts.com/locations/Cardiff

INSPIRATIONAL INTERIOR DESIGN.

When you aspire to have the best in comfort and style on your journey, why compromise when you reach your destination.

Visit our award winning Cardiff Showroom and one of our inspirational designers, led by Lesley Taylor BILD, can help you achieve the perfect interior. Alternatively, we can discuss your requirements in the comfort of your home.

BENTLEY

Service & Repair

Regular maintenance is vital in order to preserve the performance and condition of your Bentley or Crewe-built Rolls-Royce. Our factory-trained technicians offer an uncompromising standard of skill and attention to detail and will only ever fit genuine parts. With access to the latest diagnostic equipment and technical support from the factory in Crewe, you can rest assured that your vehicle will be maintained in peak condition.

Please note, we recommend that a service is carried out by an Authorised Bentley Dealer either annually or at every 10,000 miles/16,000 km.*

*Which ever is sooner

FIXED PRICE SERVICING FROM ONLY £649*

Servicing is integral to maintaining your vehicle's performance, safety and reliability so an annual inspection is vital. In addition to the range of maintenance and repair options we offer, we are now pleased to announce the introduction of Fixed Price Servicing, making it even easier to look after your car.

This new programme offers the full recommended Bentley service for your Continental Series* from the fourth year onward at a competitive, fixed price.

40,000 Miles or 4 Years** = £1,399***
50,000 Miles or 5 Years** (up to 06 MY) = £649***
50,000 Miles or 5 Years** (06 MY onwards) = £1,429***
60,000 Miles or 6 Years = £1,199***
70,000 Miles or 7 Years = £649***
80,000 Miles or 8 Years = £1,399***

Each service includes:-

Oil and filter change, replacement of dust and pollen filters, wiper blades, key fob batteries and a full diagnostic test and report. In addition, checks of the brake pads and discs, brake fluid level, suspension, steering, fuel system, cooling system and hoses is also undertaken. Further tests and checks are carried out on all exterior and interior lighting, internal warning lamps and the vehicle's on board diagnostic system, including a report on the tyre pressure monitor battery status.

The service book for your vehicle will also be endorsed with our official Bentley Dealer stamp, maintaining the integrity of the service history. As each service is tailored to the specific model, mileage and year of manufacture, the actual content will vary, so please contact our service department for full details.

Only your local Authorised Bentley Dealer can truly look after your vehicle, and whilst there may be other outlets that claim to provide a service, only the Bentley network fully understands the intricate components

and system of your vehicle. As your local dealer, we have direct access to factory support, the latest diagnostic equipment and factory trained technicians, who better to guarantee the ongoing maintenance of your vehicle?

* Available in the UK for Continental Series vehicles registered between 1st January 2004 onwards

** In accordance with the manufacturer stated service schedule

*** Prices include all labour, parts, oil, consumables and VAT at the current rate of 20%

DEFINITELY MAKEPEACE

Makepeace Cabinetmaking has been creating exceptional bespoke furniture for every room in the home and office since 1975. The portfolio of work undertaken is limitless from kitchen furniture to complimentary interior doors and skirting boards. In fact they can make just about anything using quality hardwoods.

Without doubt, commissioning a bespoke piece of furniture is by far the best way to create furniture which is unique and a pleasure to have in your home.

What sets Makepeace apart from other companies? Makepeace take pride in both the quality of their furniture and the personal service they offer. It does not take long to appreciate how well made their furniture is. They strive to achieve complete customer satisfaction throughout the process, from design to installation.

The first stage of the process is to explore and investigate all the options available. There will be a consultation with a professional designer at the showroom or at the client's home, where plenty of time is spent discussing requirements and design ideas. This personal service also gives an opportunity for people to find out more about the company, see the workshops and get a deeper understanding of how furniture is made.

"Clients sometimes have a clear idea of their requirements from the beginning; however often we will suggest an idea that may not originally have occurred to them. It's my job to help people realise the potential of a design concept and how it can be applied"

Matthew Williams BA(Hons) MSc
Furniture Designer

The next stage is to create design proposals and communicate with the client through drawings, models and samples. It is important that clients understand and visualize these ideas. Once a final design and price has been agreed upon, the making process begins. Clients are encouraged to visit the workshops to see their commission being made.

The company employs some of the finest craftsmen in the industry, with an exceptional ability to make furniture to the highest quality and design. Gordon Wide, workshop manager and cabinetmaker with over 30 years experience says "Every job is different and always a challenge. We take enormous pride in what we do and enjoy working with the customers on their project and have great satisfaction in seeing the finished end results".

With the wealth of experience available to all its clients, Makepeace believe that commissioning a piece of furniture will not only be an investment, but will give many years of pleasure, providing the owner with something beautiful to be treasured. The company takes pride in the fact that a lot of work comes from returning clients and recommendations. In fact, when people see the furniture they know from the quality and design that it is 'Definitely Makepeace'.

Parts

Maintain the performance of your Bentley or Crewe-built Rolls-Royce, with Bentley and Crewe Genuine parts.

With more than 60 years car manufacturing experience at our Crewe factory we are able to provide our authorised dealer network with access to over 50,000 genuine parts for cars from 1955 to current day. All parts are covered with a comprehensive 2-year, unlimited mileage warranty. Each part, designed and manufactured to the original specification, is quality approved to the highest standards to help maintain the provenance of your vehicle.

THE NEW CONTINENTAL GTC PREVIEWS AT BENTLEY CARDIFF

Guests of Bentley Cardiff were present at the first unveiling of the Continental GT Convertible at its showroom in Cardiff recently.

The new Continental GTC was officially launched at the Frankfurt Motor Show in September. The Continental GTC has made it one of Bentley's most eagerly awaited

cars; sharpened, refined and progressive it promises an extraordinary open-top experience.

The scene was set with a fantastic backdrop of beautifully hand crafted lights by the acclaimed sculpture Bruce Munro. In addition, this stunning convertible has been immortalised in six paintings, especially

commissioned by Bentley and on display for this day only.

Guests enjoyed a menu of canapés devised by Michelin-starred chef Angela Hartnett, MBE, and produced locally by the Cardiff and Vale College's hospitality department.

Chefs Kevin Farlie, Jo Harding and Joyce Harvey along with Head of Department Alan Ackerman were delighted with their students'

workmanship in expertly producing the canapés and serving them to the guests along with a glass of Classic Ruinart Champagne from the world's oldest champagne house.

Andrew Ford, Dealer Principal, commented *"The preview was a great success and presented a donation to the students and staff of Cardiff and Vale College to help towards their future field trips"*.

www.oakwoodfp.co.uk

NEW CONTINENTAL GTC V8

Although closely related to the GT, the Continental GTC V8 has its own distinct character. Those iconic Bentley features of dominant bonnet line, prominent matrix grille and twin large inner headlamps confirm its pedigree, while the wide track and four-square stance emphasise the performance focus of an all-wheel drive supercar.

NEW CONTINENTAL GTC V8

At the rear, wrap-around lamps accentuate the low, wide proportions, flanking a distinctive Bentley 'double-horseshoe' boot lid with a spoiler on its upper edge.

Distinguishing features for the V8 model include a red enamel winged 'B' badge, gloss black grille with bright chrome surround, three-segment front bumper and the 'figure eight' tailpipes at the rear.

uolo

...because U only live once

www.uolo.co.uk

NEW CONTINENTAL GTC V8

To call the Continental GTC V8 a convertible understates its capabilities. It is both a sensational open tourer when the weather permits and a practical year-round proposition, as well insulated and refined as a coupé thanks to its four-layer roof.

And for the owner of a Continental GTC V8, one of the incidental pleasures of hood-down motoring is the chance to enjoy the V8's mechanical symphony...in full surround sound.

POGOSTKINA

Inspiring, Innovative, International

2011/2012

Welcome to the New International Concert Series, bringing you a programme of international Orchestras, Conductors and Soloists.

Classical Music at its very best from the National Concert Hall of Wales!!

Leading UK orchestra, City of London Sinfonia, perform at St David's Hall on Tuesday 7 February, 7.30pm as part of the International Concerts Series. Scott of the Antarctic Centenary concert is a partnership between the orchestra and the Scott Polar Research Institute (SPRI) and forms part of the Scott 100 Festival of Events 2012.

This concert seeks to retell the inspiring human story behind this epic expedition to the South Pole through music, words and photography, and features excerpts from Vaughan Williams' film score Scott of the Antarctic, interwoven with moving readings from Captain Robert Falcon Scott's expedition diary and letters. The iconic music of Vaughan Williams' Symphony No. 7 (Sinfonia Antartica) will also be performed, alongside stunning projections of expedition photographs by Herbert Ponting, now digitally restored in high definition.

At the heart of the programme is the world premiere of a new work by British composer Cecilia McDowall, entitled Seventy Degrees Below Zero. Featuring leading British tenor Robert Murray, the piece sets McDowall's music to words by poet Seán Street, who uses as his inspiration entries in Scott's expedition journals.

This is a real International programme indeed as St David's Hall welcomes Russian splendour from the Russian State Philharmonic Orchestra on Friday 17 February at 7.30pm. Then there is French finesse from the Orchestre National du Capitole de Toulouse on Thursday 29 March at 7.30pm. Under their principal conductor, Tugan Sokhiev they perform Debussy's evocation of the heavy golden shimmering heart of afternoon; Saint - Saens Third Violin Concerto, performed by rising star Alina Ibragimova and Rachmaninov's final masterpiece, The Symphonic Dances.

Two internationally renowned conductors return to the ICS Series Cardiff, Vladimir Ashkenazy and Esa-Pekka Salonen return with the Philharmonia Orchestra on Friday 16 March and Tuesday 22 May at 7.30pm.

Freddy Kempf's Beethoven marathon continues in this, the second concert with the Royal Philharmonic Orchestra on Friday 11 May at 7.30pm. In this concert Kempf conducts from piano the 4th and 5th concerto, regarded as the two most audacious and best loved pieces.

To book tickets for any concert in the ICS Series please contact St David's Hall box-office on **02920 878444** or click on

CONTINENTAL SUPERSPORTS CONVERTIBLE

CREATING THE MOST POWERFUL BENTLEY ROAD CAR EVER, MEANT PUSHING THE BOUNDARIES OF 21ST CENTURY TECHNOLOGY

The result is an all-wheel drive supercar that is faster and more agile than any Bentley built for the road. Available as a two-seater coupé or four-seater convertible, its muscular exterior and distinctive interior styling is unmistakably Bentley in its design and craftsmanship. This is a car created through the continuing desire to reach new limits. The Continental Supersports represents a perfect relationship between engineering and design with the enhanced iconic GT looks reflecting and heightening the supercar performance. The fastest, most powerful Bentley ever.

Davies Motor Company
Hadfield Close, Cardiff
CF11 8BD
Tel: 02902 394407

www.daviesmotorcompany.com

Davies Motor Company has a history spanning over 37 years in the Body Repair industry, created by Alvyn Davies a modest but busy business running out of a unit in the Riverside area of Cardiff. Alvyn always had a passion for Cars, particularly Bentleys, It was always in the business plan and aspirations of the family run business, to become Bentley approved.

Today DMC are the only approved Body Repair Company for Bentley Cardiff in Wales. A proud achievement made by Alvyn's predecessor and son, Sean Davies and his team. Sean shares his dad's passion for fine vehicles and has a meticulous approach to Body Repair, Sean's constant strive for perfection is shared by his highly trained and skilled staff, who only turn out the highest standard of workmanship, that only a Bentley vehicle deserves.

Today DMC runs out of an impressive building based off Hadfield Road conveniently less than half a mile away from the Bentley Cardiff Dealership, Sean has built up a close working relationship with Richard Welch the after Sales Manager at the dealership, Richard's testimonial on the company's website says it all.

"We only recommend DMC to our customers as they are a professional run family business who always gives us a high standard of workmanship"

**Sean Davies (Managing Director)
Davies Motor Company**

Here Sean explains why being Bentley approved is such a great accolade to behold.

How long have you been Bentley approved?

7 Years

What does it mean to you to be Bentley approved?

Becoming the only approved repairer in Wales means that we have risen to a standard that is both agreed and acceptable by Bentley, which for us as a company, means that we could not reach a higher pinnacle of standard within our work, although that doesn't make us complacent it only makes us continue to work towards maintaining that standard.

What special skills / requirements are required to becoming Bentley approved?

The skills that are required are to be highly trained and professional in carrying out repairs, All our staff attend training days which are organised by Bentley, although we invest in our staff to attend other courses in order to maintain skills. The requirements are to invest in

equipment that Bentley advise we use, in order to stay ahead with the current technology that is being invested in Bentley vehicles.

What could a Bentley Customer expect from DMC?

From the initial contact a customer will always receive an excellent customer service, followed by an accurate and quick estimate, We will handle contact with the insurance company and complete the repair/s to the high standard of finish, possible, we only use quality paint and materials, at Davies Motor Company we treat all customers equally regardless of their car status.

What is your favourite Bentley?

I took my staff to visit the Bentley Factory which was a great experience, there they have a museum and I saw an Exp 2 which is the oldest Bentley, a super charged 4 1/2 litre blower, which was driven by Mr Walter Owen Bentley himself, and awesome car.

What Challenges do you face repairing a Bentley to any other vehicle?

Our biggest challenge is negotiating with the insurance companies regarding the time that is needed to repair a Bentley.

What are the negatives to becoming Bentley approved?

I can honestly say I can't think of any apart from there are not enough on the road, but then again if they were they wouldn't be so desirable.

What are your plans for the future?

Our plans for the future is to continue to strive for excellence, to maintain staff training to Bentley standards and stay one step ahead in the game.

The Barn at West Farm

T: +44(0)1656 880465
www.barnatwestfarm.com

Welcome to The Barn at West Farm - a unique venue for private and corporate hospitality. Here, the spacious outbuildings of a traditional Welsh farmhouse have been tastefully converted to the highest standards of refinement.

The location is spectacular. Situated in the charming village of Southerndown, The Barn at West Farm stands on the cliffs of the Glamorgan Heritage Coast, with panoramic views over the Bristol Channel to the low hills of North Devon. The famous coastal path, 26 miles from Porthcawl to Sully, passes the very gate of West Farm, above the sandy beaches of the Golden Coast.

Individuality is the essence of The Barn experience: comfort, convenience and the enjoyment of guests are the cornerstones of our service. Licensed bars and café, a private auditorium, spacious lawns and outdoor seating - all can be dressed to create an exclusive event tailored to your needs. Friendly and helpful staff and the stunning vista create an unrivalled atmosphere that make The Barn at West Farm the only venue of its kind in Wales.

Facilities at The Barn

Legends - a sophisticated café bar, themed to evoke the great days of Hollywood. Images of fabled stars peer down on dark wood and leather, slate tiles, and exquisite fittings of chrome, steel and glass - modern, but with a subtle nod to the art deco of a bygone age.

When not in private hire, Legends is open to the public - on weekends in the winter months and from Wednesday to Sunday for the rest of the year. Legends is also the setting for live performances, including the popular monthly jazz nights.

Rustic bar - oak beams and a flag stoned floor, the epitome of a cosy snug bar. Food can be served here, as well as a full range of wines, spirits, beers and beverages.

Private cinema - a comfortable auditorium for conferences, seminars, lectures, training sessions, film shows and other presentations. The room accommodates up to 40 delegates and is fully equipped with audio-visual, computer and IT systems.

Outdoors - spacious, uncluttered lawns provide ample room for marquees and outdoor catering that can typically accommodate 300 guests or more.

Events

Wedding ceremonies to live music, business conferences to product launches, The Barn at West Farm hosts events of all kinds:

- wedding ceremonies and receptions
- family celebrations
- parties and private functions
- conferences
- training and seminars
- board meetings and AGMs
- product launches
- film shows
- music recitals and concerts
- televised sporting events
- plays
- exhibitions

Catering

The well-equipped kitchens of The Barn at West Farm can create and serve a menu designed exactly to your tastes. For large events, we'll coordinate the services of reputable caterers, whether for a casual barbecue or more formal dining.

When not in private hire, Legends café bar is often open to the public - serving a selection of home-made food, locally sourced where possible. The fare includes freshly prepared sandwiches and light bites, delicious cakes from nearby Ewenny, speciality teas and coffees, and a large selection of wines, spirits and beers.

Accommodation

The Glamorgan Heritage Coast boasts a number of hotels and guest houses - we'll be happy to arrange local overnight accommodation that best suits your needs. And The Barn at West Farm maintains a guest suite for the bride and groom on that special night.

Getting to The Barn at West Farm

Southerndown is on the B4524, between Ogmere by Sea and St Bride's Major. A ten minute drive from Southerndown through the scenic delights of the Vale of Glamorgan takes you to Bridgend, the M4 motorway, and the national rail network. Reliable taxi services operate between Bridgend and West Farm.

The international airport at Cardiff is less than 20 miles from Southerndown, and Bristol International Airport is a 90-minute drive. For executive travel, the Cardiff-based helicopter hire company Veritair can land at West Farm.

**For bookings or any other information, please contact
admin@barnatwestfarm.com**

THE NEW CONTINENTAL GT V8

THE NEW CONTINENTAL GT V8

A GT THAT DRIVES TO A DIFFERENT BEAT

The clues are there. The dark mesh radiator grille, ringed by bright metal. The aggressive lower bumper with its three air intakes. The dark rear valance, with its twin exhaust tailpipes shaped into an elongated, side-on figure eight. And one further small, but significant detail: a red enamel Bentley winged 'B'. These are the tell-tale signs of an all-new Bentley, powered by a 4.0 litre V8 engine.

From the distinctive backbeat of its eight cylinders at idling speed to the glorious snarl of full-throttle acceleration, the new V8 offers an exhilarating, involving and passionate route to Bentley Continental ownership. All-wheel drive and an eight-speed transmission transmit its power to the road with unshakable precision. This is a Bentley that can both stir the soul or calm the spirit, according to the mood of the driver or the conditions.

THE NEW CONTINENTAL GT V8

PERFORMANCE

Pressing the start button of the advanced new 4.0 litre V8 engine and its inspiring repertoire of sound is brought to life. From the deep V8 burble at low engine speeds to the rising growl and rasp as the car accelerates. Bentley's new V8 develops a massive 660 Newton metres of torque at the comparatively low engine speed of 1700rpm, catapulting a Continental GT V8 from a standing start to 60 miles an hour in just 4.6 seconds, and on to a potential top speed of 188mph (303 km/h).

A new 8-speed transmission delivers faster, smoother gear changes, and accounts for 6% of the total 40% efficiency gain achieved by the new V8. Its greater number of ratios ensures that the engine is always working at its most efficient gearing.

Juboraj

RESTAURANTS

HOME DELIVERY AVAILABLE ALL OVER CARDIFF*

With one of the best Indian Restaurant experiences in Cardiff, a full menu Takeaway service and convenient Home Delivery – you'll always find a way to enjoy a Juboraj.

The comprehensive menu, contains traditional and contemporary dishes all made with the highest quality ingredients. Start with a golden Aloo Chat, diced boiled potatoes served in a rich sauce with fresh coriander or maybe a delicately spiced Shami Kebab. Follow it with a renowned Juboraj speciality of sensationally spicy Chicken Kholapuri masterfully prepared with turmeric, cumin, coriander and fresh green chillies or perhaps a

traditional Northern Indian delicacy, Karahi, a rich dish cooked with exotic herbs and spices served on a sizzling karahi cast iron wok.

Many of the dishes on offer are Juboraj originals, often copied by others. One such dish, the Jamdhani Haash, a whole breast of tender duckling gently cooked in light spices, honey and lime juice giving an exquisite taste.

With an extensive wine list, irresistible desserts and high quality coffees and liqueurs you can be sure that you'll experience one of the best Indian and Bangladeshi restaurants Cardiff has to offer at the a Juboraj.

THE NEW CONTINENTAL GT V8

CRAFTSMANSHIP

Whether it is the technological - the knife-edge crease lines down the front wings of the Continental GT made using a technique called superforming, where 5083 grade aluminium is heated to 500°C and shaped around a die using air pressure. No other process enables such a complex panel to be created with such crisp sharp lines and without seams or joins. Or the traditional – V8 upholstery hide begins with an age-old tanning process that retains the rich, natural aroma of classic Bentley interiors. When it arrives in two-dimensional form, it will be shaped, stitched and worked around the complex multiple curves of seats and armrests. Creating a cocoon of curved yet crisply-defined planes and surfaces that demand the highest standards of skill from our dedicated craftspeople.

THE NEW CONTINENTAL GT V8

TECHNOLOGY

The Continental GT's infotainment system is every bit as compact, powerful and technologically advanced as the cars that houses it. As standard the Continental GT comes with an eight channel, eight speaker system, with 15GB of storage for music. Music can be played via an iPod, MP3 player, the car's own six-disc CD changer or even an SD card.

As for the 'info' in 'infotainment', the effortless touch-screen navigation system includes live traffic data*, online access for point of interest searches*, a 30GB hard disc drive offering rapid access to a continent-full of mapping and even the option of satellite landscape imagery*. As you drive, it provides real time monitoring of your tyre pressures, access to your phone contacts (either via Bluetooth or by inserting your SIM card) and the opportunity to zoom in or out of mapping at the slightest touch of a finger.

* Not available in all markets

WHEELS AND WINGS WITH BENTLEY CARDIFF

A select group of VIP guests were treated to a day of 'wheels and wings' courtesy of Bentley Cardiff.

Thirty customers indulged in a special event at Cotswold Airport, near Cirencester, where they were able to put the magnificent Bentley Supersports through its paces on a 1.5 mile runway.

The guests also had an opportunity to take their choice of the Bentley range for a scenic drive around the spectacular Cotswolds countryside, and get a closer look at the Supersports, new GT and a marvellous Mulsanne.

What's more, they were able to satisfy their desire for thrills by racing land hovercrafts, view a collection of vintage aircraft including a tour of a Boeing 747, and were entertained by an aerobatic demonstration.

Andrew Ford, Dealer Principal, said: "The glorious sunshine showed off the Cotswolds and the beautiful Bentleys to perfection and our guests were also treated to a luxury buffet lunch.

"The day was a tremendous success, enabling everyone to explore the racing capabilities of the cars and learn how to harness the power and agility of these sporting thoroughbreds."

Bentley Cardiff, located in Penarth Road, offers a range of services to maintain the power and performance of Bentley cars – with a special personal touch.

The highly skilled and dedicated team demonstrate a level of pride echoed through every stage of service, preserving the legend of the unique Bentley marque.

For further information on Bentley Cardiff, please call: 02920 347 950 or visit: www.cardiff.bentleymotors.com

BENTLEY

CONTINENTAL FLYING SPUR SPEED

Introducing the Continental Flying Spur Speed, a sumptuous and spacious four-door Grand Tourer with the heart and soul of the most breathtaking high-performance coupé in the world. A harder edged and sportier feel with tauter handling and nimble steering response. New levels of performance echoed by more purposeful design cues all around. A different personality altogether. With a top speed of 200mph the Continental Flying Spur Speed is the fastest four-door Bentley, offering unparalleled levels of agility and driver engagement, whilst uncompromising drive performance and comfort.

THE LORD'S TAVERNERS

A GOLF DAY WITH BENTLEY CARDIFF

Lord Taverners Swing into action at the annual golf day, sponsored by Bentley Cardiff.

The Lord's Taverners, Wales Region got into the swing for its annual Ian Spratling Memorial Golf Day which promised to raise thousands of pounds to help children with special needs get involved with sport.

Last year's event took place at The Royal Porthcawl Golf Club on 29th September and saw Tre-Gib Comprehensive School presented with a wheelchair accessible mini bus by Taverners Wales Region Chairman, Ed Meggitt.

A special thank you to the Bentley Cardiff staff who attended the day and to all Bentley Cardiff customers and guests who help raise £2000, just on the raffle, auction prizes and donations.

BENTLEY

MULSANNE

While paying homage to past Bentley greats, the brief for the Mulsanne's design and engineering teams was to create a Bentley that represents the pinnacle of British luxury motoring.

The Mulsanne, designed and engineered at Crewe from the ground-up, reaffirms the marque's intent to create a new flagship Bentley with refined performance, unparalleled levels of interior luxury and coach building skills to the fore.

The Mulsanne name underlines Bentley's sporting heritage and passion for power and speed. Nothing reflects that prowess better than the legendary Le Mans 24 Hours race. Bentley has enjoyed success on six occasions at Le Mans, where its powerful and reliable race cars have thundered down the long straight into the famous Mulsanne corner, from which the model takes its name.

BENTLEY MULSANNE – THE ART OF COLOUR

Exacting standards of craftsmanship and technology are employed by Bentley's body assembly team to create the new Mulsanne's distinctive, hand-crafted 'hewn from solid' appearance. But this is just a precursor to the painstaking attention to detail afforded to Bentley's new 4-door flagship in the paint facility at the company's headquarters in Crewe, England.

The new Mulsanne will be offered in no fewer than 115 'standard colours' and that is just the start of the story – because, like every grand Bentley – the only real limit on the colour of the car is the customer's imagination.

Once the bare metal, pre-production Mulsanne bodyshell arrives at the paint shop via the automated overhead gantry, it passes through a series of full-immersion tanks, designed first to de-grease, then in turn to clean, condition, rinse, phosphate and passivate the steel and aluminium structure.

At each tank the shell is immersed before being tipped fore and aft to ensure that every single crevice is reached. Once drained, the bodyshell is lowered into an electro-coating tank, where power is increased to 320 volts, attracting particles-in-solution which deposit on the charged, metal bodywork to form, in conjunction with the phosphate, a hard protective shell of corrosion-proof zinc primer.

From this point, the judgement and skill of Bentley's craftsmen come to the fore. A two-coat primer is applied by hand, ready for the colour-of-choice to be applied. Each primed body is minutely inspected, sanded – or flatted – using a combination of hand and power tools. Only when the primer coat is flawless will the colour basecoat be applied, again by hand, to achieve the optimum finish. Clear lacquer coats are then applied robotically followed by final polishing for a perfectionist finish and detailed inspection in the specialist bays created for the Mulsanne. >>

TIBALDI
FOR BENTLEY
SUPERSPORTS

Every Bentley makes a statement. With the Continental Supersports, the revered English marque demonstrates that limitless performance, peerless comfort, and sublime elegance are compatible with a changing world. The result has been described by Bentley as "the most extreme Bentley ever."

To represent the spirit and soul of the Continental Supersports, Tibaldi has developed a series of writing instruments that reflects in the design language of the vehicle itself.

For the Supersports pen to voice instantly its extreme functionality and purpose, Tibaldi's designers turned to carbon fibre – the material most evocative of modern technology – with solid titanium trims. Materials such as these enable the Supersports to be both lighter and stronger. Addressing the exclusivity of the actual car, the TIBALDI FOR BENTLEY SUPERSPORTS will be limited to 630 fountain pens and 630 roller balls. The number of pieces manufactured corresponds with the horsepower of the actual vehicle.

For information: www.tibaldi.it

"Bentley" and the "B in wings" device are registered trade marks. © 2011 Bentley Motors Limited.

Available from E.P. Mallory & Son Ltd. Bath Tel. 01225 788800

But if the lacquer can be applied by robotics, why not the colour? Dave Walton of the Mulsanne bespoke paint shop explains:

"Different colours have markedly different characteristics and your perception of a colour's shade changes according to how deep the coat is. Then there's the fact that no two expert sprayers would apply that colour basecoat in exactly the same way. You learn to trust each craftsman's eyes and skills, not just the process.

"It takes many months of in-depth training for a quality control inspector to learn how to identify defects that an owner might never notice, yet each one will be rectified, even if this means sending it around the entire process again. We always operate way above customer expectations of quality."

With the introduction of new satin paint finishes and two-tone colour schemes to Bentley's

extensive portfolio, Walton says the skills of the team are always evolving. Satin in particular can't be locally reworked and polished, so even the most miniscule imperfection means the entire panel is refinished.

However, Bentley's craftsmen are eagerly awaiting the moment the Mulsanne goes into full production according to Walton:

"We've been asked to match a paint finish to a cherished nail polish, a 50-year old classic Bentley and on one occasion a shade of turquoise on a food mixer for our Arnage, Brooklands and Azure customers. But even with over a hundred 'standard colours' to choose from we're still looking forward to that first commission to create a bespoke colour from scratch and execute it perfectly."

AN UNBROKEN LINE

World of the Bentley Designer uncovered at new exhibition

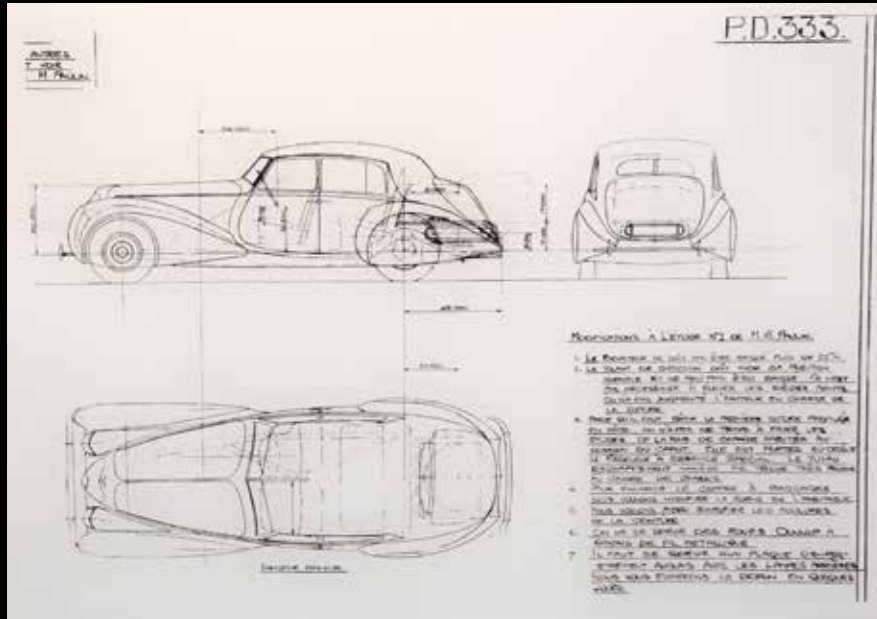

Bentley's Design team are offering a rare opportunity to take a glimpse inside the usually secret and closed world of their studios and follow the development of a Bentley from the first sketch right through to the moment it sweeps through the factory gates.

The 'An Unbroken Line' exhibition – just unveiled at Bentley's Crewe headquarters – follows the compelling story of creativity and exacting technical precision behind the creation of the latest Bentleys including the Continental GT and Mulsanne.

Many of the very first drawings for the new Continental GT, including concepts consigned to the studio archives, are being shown publicly for the first time. The designers offer a step-by-step guide as to how the interior and exterior styles

take shape both through computer virtualization and sophisticated full-scale clay models. They also provide an insight into how they employ state-of-the-art manufacturing techniques such as aluminium superforming, adapted from the aerospace industry, to shape the metal into the complex but clean lines that define the new Continental GT.

As well as capturing how the modern Bentley designer combines inspiration with technology – the exhibition also captures key moments of the company's lineage and the unbroken line of signature characteristics that define a Bentley to this day. Whether it is the particular shape and positioning of the headlights, the use of inverted needles on the dashboard or the pronounced 'powerlines' that sweep down the flanks of the car – the language of design comes to life. >>

Dirk van Braeckel, Bentley's Director of Design and Styling, explains:

"What I particularly like about the exhibition is the sheer number and variety of interesting objects we've been able to bring together for the very first time, it is quite a collection. It is also fascinating to see just how talented the early Bentley designers really were - the beauty of their concept sketches and sheer precision of their technical drawings still inspires my own team to this day."

Whilst designing the next new Bentley is serious work and a sizeable investment – the exhibition also highlights the lighter side of factory life with some design folklore. The slightly strange world of 'Teddy Bear Ears,' the 'Bentley Bat Cave' and 'Dame Ednas' are explained and there is the opportunity to see how the designers have turned their hand to creating beautiful and bespoke accessories with other luxury partners like Breitling and Tibaldi.

Right at the heart of the exhibition – illustrating the art of designers both past and present – are some of the finest examples of the cars that have made Bentley famous for over 90 years.

The new Continental GT and Mulsanne line-up alongside some classic and rare Bentley's including Woolf Barnato's exquisite 1930 'Blue Train' Speed Six Coupe which has been especially shipped in from America by a friend of the company. The car is renowned for its sleek and revolutionary Gurney Nutting coachwork and is also famous for winning one of the most intriguing wagers in motoring history when Barnato, a Le Mans-winning driver, drove all the way back to London from the south of France before his friend reached Calais on 'Le Train Bleu.'

'An Unbroken Line' will be based at Bentley's Headquarters in Crewe throughout 2011.

BOND GIVES BENTLEY CARTE BLANCHE

Bond is back, and as ever he is sporting the best in luxury cars. In the pages of *Carte Blanche*, the new James Bond book by international best-selling author Jeffery Deaver, the fictional British spy has continued with his classic preference of luxury sports car by selecting the breathtaking new Bentley Continental GT as his transport of choice.

Carte Blanche is due to be published by Hodder and Stoughton in the UK on May 26, a few days before the anniversary of Fleming's birthday. It has been commissioned by Ian Fleming Publications Ltd.

The book is partly set in Dubai, which is where the author and the new Bond car have been spotted, outside the InterContinental Hotel in

Dubai Festival City. Bond's new Continental GT certainly suits his character, with a fabled 6.0-litre, W12, twin-turbo engine capable of producing 567 bhp and 516 lb-ft of torque.

While James Bond's new car may be better suited for a secret agent in understated tones, the author of the book admired a less inconspicuous model. Set in stunning white with a blood-red interior, the new Continental GT mixes svelte good looks with power, poise and exceptional prowess. The hand-stitched leather interior contains all the high-tech gadgetry Bond could ever need. And with the famed sound dampening that only lets through the captivating sound of the wonderful engine, the cabin provides a true Quantum of Solace for Fleming's jet-setting gentleman spy. >>

Jeffery Deaver sampled the stunning vehicle on his recent visit to the Emirates, where he commented, "I'm really excited about being back in Dubai. It is an inspirational and awe-inspiring city and makes a perfect Bond location—especially for a novel that pushes our hero to new extremes."

Regarding the book's title, which was revealed in January, Deaver added: "In the world of espionage, giving an agent carte blanche on a mission comes with an enormous amount of trust and constantly tests both personal and professional judgement. Part of the nonstop suspense in the novel is the looming question of what is acceptable in matters of national and international security. Are there lines that even James Bond should not cross?"

The James Bond of Ian Fleming's original novels also opted for a Bentley. The world's most

famous spy would choose nothing less than the scintillating performance and second-to-none quality of the classic luxury car.

Jeffery Deaver has written 28 novels and sold more than 20m books worldwide. He is best known for his Kathryn Dance and Lincoln Rhyme books, most notably *The Bone Collector*, which was adapted for film in 1999, starring Denzel Washington and Angelina Jolie. Before becoming a full-time author, Deaver was a journalist, like Fleming, and attorney. He started writing suspense novels on the long commute to and from his office on Wall Street. His books are now translated into 25 languages and he lives in North Carolina.

BENTLEY

50 YEARS OF THE BENTLEY V8 ENGINE

Fifty years after its introduction in the iconic Bentley S2 Continental, Bentley's V8 engine continues to power the company's powerful, flagship luxury motor cars including the 530bhp Bentley Brooklands coupé, the Arnage and Azure convertible models in 2009.

As engineering director Dr. Eichhorn has overseen the development of the potential of the Bentley V8 and this includes the introduction of the engine in its most potent form in the Bentley Brooklands coupe. Hand-built at the company's Crewe headquarters,

the 6¼ litre Bentley V8 engine powering the Bentley Brooklands generates 1050 Nm/774 lb.ft of torque at 3250rpm and is capable of offering a top speed of 184mph as well as a 0-60mph sprint time of just 5 seconds.

Since joining Bentley Motors in 2003, Dr. Eichhorn has also overseen the introduction of the 6 litre W12 engine in the company's Continental range. Earlier this month, Bentley Motors launched the Continental GTC Speed, the world's fastest four-seat convertible, at the Detroit Motor Show.

BENTLEY

ENVIRONMENTAL POLICY

The integration of environmental values into the Bentley vision and brand signals an evolutionary step in Bentley's history. The entire company is embracing green technology while remaining true to W.O. Bentley's simple ambition: to produce "a good car, a fast car, the best in its class".

These improvements are now being augmented in the vehicles themselves with an environmental solution that is both technically advanced and practical.

Vehicle Disposal (UK only)

Bentley Motors Limited has an arrangement with Cartakeback.com to provide a disposal service for any Bentley vehicle.

Vehicle Disposal (Continental Europe)

Bentley Motors has arrangements with authorised disposal contractors throughout Europe who are able to dispose of Bentley cars at the end of their lives in an environmentally responsible way. To access these services, please contact your approved Bentley dealer.

BENTLEY SUPERSPORTS SHATTERS WORLD SPEED RECORD ON SHEET ICE

Rally champion, Juha Kankkunen achieves 205.48 mph (330.695 km/h) in extreme Bentley convertible

Finland's four-time world rally champion Juha Kankkunen drove a Bentley Continental Supersports convertible on the hazardous frozen waters of the Baltic Sea, off the coast of Finland, at a breathtaking 205.48 mph (330.695 km/h) to set a new world speed record on ice.

dangerous crosswinds on the 16.5km track on a 70cm-thick layer of sea ice. The record attempt was driven on a 1000m long measured distance with the speed certified by officials from the Finland Traffic Police. His new world record was based on the average of two runs in opposite directions with

Kankkunen was in irresistible form with his all-wheel drive, 6-litre, 12-cylinder Continental Supersports convertible which, in line with the Company's CO2 strategy, ran on biofuel. The world's fastest soft top enabled Juha to shatter his own 2007 world ice speed record of 199.83 mph (321.6 km/h) set in the Continental GT at the same location.

measured speeds ratified by a representative of The Guinness Book of Records.

"The last time, I narrowly missed the magical 200 mph mark in a Continental GT. When I heard about the Supersports I was determined to go record breaking again with the Bentley Boys. This time, with over 600bhp under the bonnet, a Quickshift transmission and the security of the all-wheel drive system, the Supersports convertible was the perfect car to go for the record." Kankkunen said. "200mph came up after 5km on sheet ice."

With the help of his own experienced team and Bentley engineers, Kankkunen overcame the challenges of temperatures as low as minus 30 degrees, sudden snow blizzards and potentially

www.greensquares.co.uk

Then it was just a question of getting everything right in the timing zone and hoping the snow kept away. There's nothing to beat driving a Bentley at these speeds; the conditions may be perilous but the car responds so well to the slightest adjustment which gives you the confidence to push even harder."

As with the previous record-breaking drive in the Continental GT the Anglo-Finnish team used a car with minimum modification. A fully-welded, heavy-duty safety roll-cage, along with Pirelli winter tyres (Pirelli SottoZero II 275/40R20) and a rear bumper-mounted parachute provided reassurance in case of an emergency. Front and rear spoilers provided optimum high speed stability on the treacherous surface.

To highlight Bentley's environmental commitment to sustainable fuel sources, Kankkunen's

Supersports Convertible was fuelled with E85 bioethanol rather than petrol (gasoline). All models in the Continental range are capable of running on petrol (gasoline), E85 bioethanol or any combination of the two.

Wolfgang Dürheimer, Bentley's new Chairman and Chief Executive, said "The ice speed record is an amazing feat by Juha Kankkunen, whose skill and courage in extreme conditions truly make him one of the modern-day Bentley Boys. We will be celebrating this achievement with a very special 'extreme' Bentley, which will be the most powerful model ever to bear the famed Winged B emblem."

A limited edition of just 100 examples of this most extreme Bentley will be made and the car will make its global debut at the Geneva Motor Show on 1st March.

BENTLEY

Power on Ice 2012

THERE IS NOTHING QUITE LIKE DRIVING A BENTLEY.
THERE IS NOTHING QUITE LIKE DRIVING A BENTLEY ON ICE...

To celebrate the Bentley world ice speed record set by Juha Kankkunen last year, we would like to invite you to join us for Bentley Power on Ice 2012. Our exclusive winter adventures allow you to experience for yourself how the all-wheel drive performs on snow and smooth ice meaning you'll really get to know the winter capabilities of a Bentley. Naturally, this is all within a controlled environment, with the guidance of our expert instructors. We continue with a unique two-day programme, each for a small select group of Bentley owners, and designed to fully demonstrate the exceptional poise of the Continental GT series in the most adverse conditions. Of course, you'll want to unwind after the driving, so we have reserved luxury accommodation, and arranged a superb combination of local and gourmet cuisine. There will be plenty of opportunity to relax after spending the day on our specially prepared frozen lakes and ice test tracks, and

to exchange your experiences with your fellow Bentley enthusiasts. We hope you will join us for this highlight of the 2012 Bentley calendar.

IN GOOD HANDS. IN A BENTLEY.

Knowing a Bentley is a superb way to indulge in the spirit of driving. Knowing how the car will react on snow and ice in precarious situations is another matter. And knowing how you will react yourself is something you have to experience for yourself. The philosophy behind Power on Ice is to design a driving programme set in the most inspiring locations, that will take you and the car to the limit – and safely back again. Our individual and exclusive programme with just two guests per car and instructor allows us to tailor the activities to your skills and experience.

Learn how to handle such demanding situations as slalom, emergency avoidance, braking and acceleration. We will demonstrate the effect of weight transfer on the car's handling during cornering, and how to use it to your advantage. A car's motion and traction is the result of many interacting forces. We will show you how to understand these and to calculate how they affect handling. In this way, Bentley makes the unpredictable predictable—and controllable. Under the guidance of a professional instructor sitting beside you, you will develop a feeling for manoeuvring the Bentley using just the accelerator and precise adjustments of the steering wheel to safely slide the car through loops and figure-of-eights. Once you have completed the individual exercises, you will be ready to practice and hone your new skills in a number of realistic situations. These situations would be difficult enough to master on dry asphalt, and by managing them on a frozen surface, you will feel the difference made by all-wheel drive, interacting with your own developing experience. Finally, you will see how to turn the combination of sheer power and technology built into the Bentley Continental GT to your benefit—with all the time and space you need to experiment to your heart's content. When you have returned home, think how it will feel to sit behind the wheel of your own Bentley. With your newly

gained skills, knowledge and experience, and with even more confidence than before. Because you will know the true capabilities of your car.

DRIVE HARD, PLAY HARD

Seemingly endless forests covered in snow and ice, the vast white landscape alternating with mountains, picturesque frozen lakes in clearings, crystal clear and biting cold air turning each breath into small white clouds, tracks of wild animals in the snow, utterly quiet except the sound of the snow crunching beneath your shoes. The Lapland programme is located near Kuusamo, in the north-eastern corner of the province of Oulo, Finland. Just 60km south of the arctic circle and 40km west of the Russian border. This is home to Ruka, an area that has developed into an exclusive skiing resort around the Rukatunturi fell. Apart from the unspoilt hilly countryside within the Ruka area, visitors to this area can also look forward to such perfect moments as the sighting of a reindeer or elk wandering through the woods. The seasonal auroras found at this latitude continue to amaze even the most experienced—visitors and locals alike. Just below the summit of Rukatunturi is the luxury hotel Ruka Peak, poised on the side of the mountain and overlooking the

Tipi Events - "Unique & Inspiring"

We at Tipi Events Ltd are here to provide you with a truly memorable experience and make your event completely unique. We promise to give you and your guests an unforgettable and spectacular setting wherever you desire. We can even supply the perfect venue overlooking the beautiful, picturesque Chew Valley Lake.

We can cater for 70 guests seated in one single Giant hat Tipi and for larger gatherings we can join together as many Tipis as you like. To complete your special day we can provide lighting, flooring, furnishings and accessories, a fully stocked bar and catering.

The Tipis are a truly dynamic bespoke structure, with stunning interior design and are a complete, transportable wedding or event package. Please drop us an email for more details: info@tipievents.co.uk

surrounding lakes and hills. All its spacious bedrooms have their own south-facing balcony offering breathtaking views. It is here that we will dine in front of the roaring open fire, and our guests can enjoy a cold beer in a hot tub, a Finnish smoke sauna or a traditional sauna after an exhausting day's driving. As well as the main hotel itself, we have also booked neighbouring luxury Ruka Peak cottages and apartments built in traditional Scandinavian style, which are available to those Bentley Driving participants seeking the added luxury of more privacy and space, or wishing to share space as a family or friends.

the sledge and enjoy the ride as your guide takes you to the destination for a traditional meal in front of a roaring fire at the very heart of this sun-spoilt natural beauty.

SURF THE SNOW

Enjoy the total freedom of driving a snowmobile through the un-disturbed snowscape. Naturally, guides will be available to give you advice before you set off. Simply the (second) best way to travel across ice and snow - if you can't be in a Bentley, that is.

BORN TO RUN.

The eagerly awaiting pack of huskies may seem uncontrollable as you are preparing to set off. But on command they soon quieten down and begin their task: Transporting you smoothly through the woods. The pace is fast and the experience unforgettable. Sit back in

THE BENTLEY COLLECTION

The perfect gift for others or for oneself - the Bentley Collection.

Here is a selection of unique items that reflect Bentley's flair for design and attention to detail. Many of these luxury products are hand-made in England and we apply the same criteria to them that we apply to our cars - design input from Bentley's own Studio, precious materials of the finest quality and rigorous quality control. >>

NORTHERN STAR
BESPOKE JEWELLERY

Welcome to Northern Star Bespoke Jewellery

We design and produce beautiful custom made jewellery – sold all over the world from our shop in Penarth, Cardiff.

Aided by state of the art CAD technology & combined with traditional jewellery making bench skills, we will create your own individual and unique piece. To ensure you are happy with the design, we will show you a series of 3D images, which you can fine-tune, to enable your one off special piece to be made precisely to your specifications.

Beautiful bespoke jewellery // 35 A, Albert Road Penarth, Cardiff, CF64 1BY // +44 (0) 2920 709707

Each beautifully packaged item within the Bentley Collection gives you the opportunity to enter the world of Bentley Motors and to celebrate in the prestige of the brand.

Bentley have also formed a number of exclusive partnerships which have resulted in a number of limited edition pieces.

Please note that these are not available to purchase through the Bentley Collection online store, but are available through specialist outlets.
